

STA 130: Group Exercise about Professional Report & Presentation

(To be completed in tutorial on March 16.)

You will be assigned to a group of 2 or 3 students. With your group, discuss the following.

1. Introduce yourselves to each other (e.g. your name, your intended program of study, where you are from, what other courses you are taking, etc.).

2. Discuss how far along you are on your [Professional Report assignment](#), and what challenges you have found so far.

3. Discuss your plans for your [Professional Presentation assignment](#) (remembering the [speaking skills](#)), including such items as:

- Who is your pretend-audience?
- What would your pretend-audience most want to know?
- What do you wish to inform your pretend-audience about?
- How will you organise your presentation?
- What finding will you focus on?
- What speaking style/language/tone will you use?
- What questions might you expect, and how would you respond to them?
- And so on.

Time permitting, you might later discuss these questions in the whole tutorial.
